

How to Make a Foam Lined Box

Starting Materials:

1 cardboard (corrugated) box

6 pieces of EPS foam:

- 2 biggest pieces are for top and bottom
- 2 smallest (narrow) pieces are for the short sides
- 2 medium size pieces are the long side pieces

Step 1

Make cardboard box and leave the top open:

Step 2

Take 1 of the biggest foam pieces and place in the bottom of the box:

Step 3

Place a medium sized piece along the inside of the longer wall:

Step 4

Take a small (narrow) piece and place along inside of short side:

Step 5

Add the other two side (small & medium) pieces accordingly:

Step 6

Load box, Add top (large) foam piece & Tape the top of box shut.

Remember to factor in that you will lose 1 inch of interior space on each side with the foam added.
